

TECHNICAL DATA SHEET

Product: IsoSonic Ceiling Cleats
Issue Number: 001
Issue Date: January 2013

Product Information

Description

IsoSonic Ceiling Cleats are pre-fabricated metal cleats with resilient, acoustic dampening pads.

Application

Universal acoustic soffit cleats for use with standard metal frame ceilings. Designed to isolate vibration between structural floor and ceiling constructions. Requirement of Robust Details E-FC-14 and E-FC-16.

Appearance & Packaging

Supplied in boxes; stock quantity of 100.

Physical Properties

Max Load per cleat (before deflection occurs): 50kgs
